

I listen to K-LOVE radio everyday at home and at work. I find it one of the few stations I can listen to without any foul words and vulgar music. I think taking K-LOVE off the air would be a tragic loss to my community. I think it is in our best public interest to leave it on the air because it has such a positive impact on my every day living and in what my family listens to. Everyone is always concerned about offending someone by Christian words on the radio. I think it offends my rights to not be able to listen to a customer funded radio station!

Sincerely, Iva Poulson
